PROFESSIONAL EXPERIENCE

CareerFoundry | UI Design Program Details | 2020 - 2021

- 400+ hours of **UI Design** study and practice covered design theory, created moodboards, and brand guideline documents. Designed applications using up to date iOS and Android guidelines, constructed prototypes and animations.
- **UX Design** exploration and conducted research, designed personas, sketched designs, and performed tests on potential users.
- **Frontend Development** and learned the foundations of HTML, CSS, and JavaScript, and built a personalized website showcasing my designs.

Castle Rock Adventist Hospital | Clinical Hospital Pharmacist | 2014 - 2021

- Designed a new Cardiac Arrest Reference book, for new pharmacist graduates, decreasing the time a patient would receive a life saving medication, by three minutes.
- Analyzed and monitored patient pharmacokinetics, assessed for appropriate use of medications, participated in multidisciplinary rounds to recommend formulary medication alternatives, and decreased the use of nonformulary medications by 20%.
