- Atom

EDUCATION

- **CareerFoundry** | 2021
User Experience Design Certificate
Frontend Development Certificate
- **Regis University** | 2014
Doctorate of Pharmacy
- **Arapahoe Community College** | 2010
Associate of Arts
Associate of Science
Associate of General Studies

PROJECTS

- **Sweetness** June 2021
Designed as a responsive app and e-commerce store and rebrand allowing customers to easily navigate and filter through the extensive Sweetness inventory. A user flow diagram and sketches were promptly digitized to mid-fidelity wireframes, and tested with an clickable prototype resulting in a final brand and high-fidelity mockup.
- **PlantPose** May 2021
Delivered an iOS and Android set of native apps to allow users the ease of identifying a plant with a photo, save their results to a gallery, and offer a personal plant care calendar. Competitor research influenced the creation of the user flow diagram, sketches, and branding. User tests were conducted through interactive prototypes of mid-fidelity wireframes and user feedback played a vital role in the final high-fidelity wireframes.
- **Local Craves** April 2021
Pioneered a responsive web app that offers a display of real time local restaurant deals for the user to discover based on user proximity and cuisine preference. Created a user flow, sketches, and performed competitor analyses. Conducted user tests to develop user personas. A mood board and style guide were used create the final high-fidelity wireframes and mockups.

EXPERIENCE

- **Castle Rock Adventist Hospital** 2014 - 2021
Clinical Hospital Pharmacist
 - Designed a new Cardiac Arrest Reference book, for new pharmacist graduates, decreasing the time a patient would receive a life saving medication, by three minutes.
 - Analyzed and monitored patient pharmacokinetics, assessed for appropriate use of medications, participated in multidisciplinary rounds to recommend formulary medication alternatives, and decreased the use of nonformulary medications by 20%.
